

Sheet Metal and Glass, a Perfect Match

H.M. White has been supporting industrial clients in all facets from general ventilation to specialty metal works since our inception in 1936

Industry: Specialty, Industrial
Location: Carleton, Michigan
Construction: Brownfield
Project Size: \$700k

Guardian Glass Print/Dryer Project

Guardian Glass enhanced its jumbo glass line with a new advanced print/dryer system. H.M. White's proprietary Clean Tunnel system—a state-of-the-art solution that safeguards the glass while maintaining full visibility for operation and inspection. Engineered, fabricated, and installed by H.M. White, our Clean Tunnel system features an opaque plastic grid ceiling and plastic strip curtains on all four sides to keep impurities out.

Scope of Work

Engineer, Fabricate, and Install H.M. White's Clean Tunnel Technology

- ✓ Rigid Frame
- ✓ Opaque plastic ceiling
- ✓ Plastic strip curtain sides

Project Accomplishments

"Thank you for working safely and completing the job efficiently and ahead of schedule"

- ✓ 500+ safe man hours
- ✓ Completed ahead of schedule
- ✓ Exceeded Expectations

Partners

Thank you to our valued engineering partner and our in-house fabrication and installation crews!
