

# Sheet Metal Exhaust Stacks Installed by Air

HMW has been supporting innovative automotive technology with expert sheet metal solutions for over 90 years.

Industry: Automotive

Location: Marshall, MI

Construction: Greenfield EV Battery Plant

Project Size: \$3.4 million

## Ford Blue Oval City Project

HM White Engineered and fabricated 98 custom sheet metal stacks for the building's process exhaust network. The final pieces were installed by helicopter over a single holiday weekend at Ford's new battery plant in Marshall, Michigan.

### Scope of Work

Developed customized ventilation stack solutions designed and fabricated to meet schedule.

- ✓ Lower energy costs
- ✓ Low maintenance
- ✓ High power production

### Project Accomplishments

Engineered and fabricated customized ventilation stack solutions tailored to meet strict project timelines and performance standards.

- ✓ Energy Efficiency
- ✓ Durability
- ✓ High Capacity

### Partners

HMW Partners facilitating the automotive construction industry.

- ✓ Walbridge
- ✓ Ventcon
- ✓ HMW installers and fab

H.M. White excels in delivering successful sheet metal projects across automotive, industrial, commercial, specialty, and energy-saving sectors
